DETAILED ACTION

1. This Office Action is a response to communications dated 04/21/06. Claims 1-5 are pending in the application.

Allowable Subject Matter

2. Claims 1-5 are allowed.
3. The following is an examiner's statement of reasons for allowance: Applicants' reason for patentable features, in the Remarks of the outstanding response filed 04/21/06, is *"logic for ascertaining, by the wireless device, whether the wireless device should attempt to associate with an alternative access point operating on an alternative channel, the ascertaining logic operating a least in-part on indications of signal strengths of transmission from the current and alternative access points."* Such reason is not accurate for the claimed limitation has been amended. The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed invention comprising, among other limitations, novel and unobvious limitations of *"logic for ascertaining, by the wireless device, whether the wireless device should attempt to associate with an alternative access point operating on an alternative channel, the ascertaining logic operating a least in-part on an indication of an amount by which signal strengths of transmission from the alternative access point has been reduced by that alternative access point,"* structurally and functionally interconnected with other limitations in a manner as recited in claims 1-5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
